Clint,

Thank you, and congratulations on your excellent presentation. I shall share your work far and wide, advertising it as the ‘quintessential’ study on the subject.

Since my firstborn in 1977, and two subsequent children, I have been aghast with, and against vaccination in any form, for any reason, due to the late, great Ida Honorof (I had the high honor to thank and congratulate Ms. Honorof by phone before her passing), co-author of ‘Vaccination: The Silent Killer – A Clear and Present Danger’, which profoundly changed my life.

The very notion of vaccination itself, should be outlawed and put to death once and for all as an uncivilized, fraudulent, heinous, barbaric, murderous assault, and a crime against humanity. Those that originated (as far as those still living) and those that perpetuate this assault should be brought to justice immediately.

My best,
Lily

I feel the same way. both me and my sister in law were wringing our hands, worrying about exemptions, ostracism, and the like. also, my mom, who is a RN, asked about what to do about TB or tetanus, which scared the crap out of me and had me second and 100th guessing myself. so, again, thank you, on behalf of myself, husband, and 3 beautiful, unvaccinated and HEALTHY, daughters!

Dear Clint – Your movie about vaccines is very impressive – great job! I must admit that i'm a little disappointed that you did not mention Dr. Rebecca Carley in the credits. Dr. Carley has been getting the truth out about vaccines for over 15 years, and her web-sites(s) are a wealth of information. Not only that, she has reversed vaccine-induced diseases with her protocols for thousands of people. her web-site is <http://www.reversingvaccineinduceddiseases.com> and <http://www.drcarley.com>. Also, if you go to this web-site <http://vaccinefraud.com/> you will find some excellent books, especially ICD999, The Chronic Serum Sickness Postulate. Also, a book published over 100 years ago proving that they know what they're doing. It's called "History and Pathology of Vaccination" by Edgar Crookshank, published in 1889. youi will find this and other essential books at <http://www.vaccinefraud.com>. I hope you will look into this information, and include it in any future movies about vaccines.

Thanks for all you do, and you are my choice for president!

I’m not even half way through the video- there’s a lot to take in & I need to put my thoughts down before I finish viewing it.

I’ve known for some years that mercury in vaccines has contributed to higher cases of autism. The WHO & our CDC along with other organizations found it true. They then put out a false report to the public that stated there was no link between mercury in vaccines & autism.

You’ve probably heard of or read the article “Deadly Immunity” by Robert F. Kennedy I believe it was written & published in 2005.

The number of vaccines that children receive now before entering school has more than doubled since my kids were that age. They are all adults now & have kids of their own.

This is where I’m VERY concerned-for my grandchildren. With what I have learned over the years about vaccines the mercury contained in them- I believe they also cause or contribute to learning disabilities. That & the “No Child Left Behind” which is another topic.

Not only that, now I wonder if they may end up sterile by the time they are of childbearing age.

What I learned so far viewing your video- besides all the toxins in our manufactured food & Franken-food that is everywhere- there seems to be many more children these days being diagnosed with many different types of cancer-am I correct that vaccines are contributing to or causing it? Please correct me if I’m wrong.

Thank you for your research. I’m not really surprised by what I learn anymore, but it is getting harder to not get ANGRY.

☐ Like

realityblogger / November 8, 2011

Angry is the desired response, my friend.

The cancer viruses are very well documented, and are still being sold for medical research and use. Simeon (monkey) Cancer Virus 40 (SV40) was used well into the later part of last century. While vaccines are not the only cause for cancers, the connection to some cancers is very well-documented. I am 39, and had cancer when I was 17. My particular cancer only shows up in people over age 75, or in late stage AIDS patients. I was and am neither...

Please pass the movie on, so that others can come out of their haze.

I enjoyed this documentary very much and was going to recommend it until the fear porn towards the end about fetal tissue in vaccines. Your film makes it sound like all vaccines have fresh fetal tissue in them and that a constant

supply of aborted fetuses are required in order to keep the vaccines in production. This is an appeal to emotion fallacy. Cell strains used in vaccines (such as WI-38) each came from one single fetus. WI-38 came from one aborted back in 1961, and the vaccines produced using WI-38 over the last 60 years were and still are made using tissue grown from this 1961 sample tissue. Any WI-38 biological material in a vaccine made this year doesn't actually have original tissue from that 1961 fetus. The tissue strain is grown in the lab in a nutrient rich culture. It is all new tissue that was never in a womb. Yes, it's still disgusting, but your film grossly misrepresents the science.

<http://www.immunizationinfo.org/issues/vaccine-components/human-fetal-links-some-vaccines>

☐ Like

realityblogger / April 21, 2012

Thanks for your opinion. But cloned human tissue gives me no comfort. And the cloning industry is so much larger than anyone can imagine.

Why this human fetal tissue is so vital is not as much the moral implications, which are certainly important, but you must consider that ANY animal or human tissue will create immune responses in the vaccinated person. Like PZP or squalene, your body will react to foreign tissue or substances. I'm sorry that I did not make this clear.

Aside from this, the abortion industry is alive and well in the body-part business. I cannot accept that as anything but unjust and immoral.

I'm not asking you to be pro or anti anything, only to recognize the inherent horrors that the future holds with this type of cloning and abortion science being virtually unregulated and completely outside of the public consciousness.

Thanks for your comment.

I am not sure if this vaccine made it to USA or not, but this info is worth passing on.

Following is my translation from Slovak:

Vaccine which is mandatory for Slovak children is pulled out.

Vaccine which is mandatory for all children in Slovakia was found dangerous and the State Institute for Drug Control (SIDC) had ordered it to be immediately pull out form the market. Vaccine in question is Infanrix Hexa from GlaxoSmithKline.

This vaccine is given at the age of 3rd, 5th and 11th month.

drug: INFANRIX HEXA plv iul 10×0,5 ml (10x drug.+10x inject.+20x needle)
code ŠUKL: 34905
registered owenr: GlaxoSmithKline Biologicals S.A., Belgicko
badge number: A21CB191B
exp. 01/2014

During the quality control a potential microbial contamination was found in the facility producing this vaccine. The drug itself is not microbiologically contaminated.

1st Level of Urgency was issued, which means: Potentionally life or health threatenning. Execute procedures immediatelly (in other words – STOP distribution!)

Infanrix Hexa is vaccine that is given for prevention of: diphtheria, tetanus, petrusis, hepatitis B, polio, Haemophilus influenzae type B.

Here is document (in Slovak) from SIDC webiste.

I have only today discovered this video and I am pleased I did... I had no idea about any of this. I have shared it as everyone should be aware of this travesty. All I can say about the people behind all this stuff, including the scientists who

are creating these tainted vaccines is that they are all insane and should be rounded up and charged with premeditated murder as should the governments involved!

I had all 4 of my children vaccinated in the 70's due to my ignorance of what was really going on... thankfully none of them had any adverse effects at the time but I now wonder if this could have anything to do with my eldest (41) having a seizure in August last year... He had never ever had a seizure before and after being examined in hospital was released to go home with no diagnosis and instructions not to drive a vehicle or operate machinery for the next 6 months and if he suffers any more seizures he is to go to his Doctor... My 13 year old grandson also began experiencing what have been diagnoses as epileptic seizures just over a year ago and until they got his medication dosages sorted out he was experiencing the seizures almost daily. He was also vaccinated as a baby.. I don't know whether there is any connection to the vaccines or if this could be due to hormonal changes as he enters puberty but I am hopeful that is all it is and he will grow out of it.

I remember being given polio vaccine orally at school in the late 50's and also another thing which left a circle of dots on my arm at the same time... I had no reaction to either...

At age 10 I was hospitalized for 2 weeks with what I always believed was glandular fever however I have since learned in the past 15 years that it was more likely to have been rheumatic fever which left me with a damaged mitral valve in my heart. My mitral valve problem wasn't diagnosed until the late 90's after I had become so ill I was suffering from angina pain regularly sometimes several times a day whenever I did anything that required exertion. After being hospitalized 3 times within 7 weeks presenting with different symptoms each time the cardiologist finally found the problem and it was rectified but, as a result I am destined to spend the rest of my life, such as it is, taking prescribed pharmaceutical drugs to help prevent me from suffering a stroke.

Fantastic! thanks!

5 mins: ok, you confirm what i thought, injection... creates anti-body because they inject fungus that will insert into DNA for corruption or just take root in the body/terrain, then this will create/excrete exosomes or anti-body (toxins and/or acids) that will then infect other cells (Anti-gene... to invade DNA) to go damage DNA even more, destroy cells, invade them to excrete exosome, so more anti-bodies... more poison... fungus maintain there own acidic terrain... like in Vinegar... ferments... Patrick Jordan does not agree with Terrain theory, which french people like me lol 'believe' is very plausible theory... because Pat says, we are so polluted and genetically modified... which i agree and understand now (GMO)... which is probably why it's so hard to detox and get healthy even on an Hygienist Diet, or Fast or else...

17 mins: <https://en.wikipedia.org/wiki/Gamendazole>
male contraceptive 100% efficiency!!!

<https://archive.org/details/39002086340891.med.yale.edu/page/n1/mode/21>

1h11 asbestos!!!
formaldehyde probably just put live virus to sleep by changing it's form... once injected, it will become alive again... fungus will take on acid/polluted terrain... detergent (LaurylSulfateSodium) change the form of spirochetes to spherical form...

1h21 adjuvant like military grade 'adjudant' ... little army helpers!
ad-jovis and ad-juice.. (add ius... more law)... so 'jovis' or jupiter is 'dies' to "ad-die"... to add death?! ad-die-tives.... Bravo! If you add toxins, this will pollute the terrain and fungus will respond quicker and take root quicker!

Clostridium botulinum (Botuline and Tetanos) like Aspergillus is a Saprophyte (bacteria/fungus/mycelium) and feeds on dead matter... cleansing agent... there's much more to it indeed!
