

9/11 (and George Bush) For Dummies

4 Votes

Who was responsible for the 9/11 attacks?

Why did the United States attack Iraq?

First, let’s find out what then President Bush thinks:

Bush admits that Iraq Had Nothing To Do With 9/11

“The idea is to try and help change the middle east... The main reason we went into Iraq at the time was, we thought he had weapons of mass destruction. Turns out he didn’t – but he had the capacity to make weapons of mass destruction. But I also talked about the human suffering in Iraq, and I also talked the need to advance the *freedom agenda*... The terrorists attacked us and killed 3000 of our citizens before we started the *freedom agenda* in the middle east.” –*President George Bush*

“What did Iraq have to do with the attack upon the World Trade Center?” –*reporter in press conference audience*

Bush answers, “Nothing! Except for it’s part of- and nobody has ever suggested in this administration that Saddam Hussein ordered the attack. Iraq was a- ah, Iraq- the, the, the lesson of September 11th is take threats before they fully materialize, Ken. Nobody’s ever suggested, that the attacks of September 11th, ah, were ordered by Iraq. however that resentment, and ah, the lack of hope, ah created the breeding ground for terrorists who are willing to use scuiciders to kill- to achieve an objective. I have made that case. And, wa- one way to defeat that, ah, you know th- ka- defeat resentment, is with hope. And the best way to *do* hope is through a form of government.”

Clint’s translation: *We invaded Iraq in order to replace Iraq’s government with a U.S. friendly one: to nation build, since Saddam wasn’t following orders any more like he did when we placed him there in the 60’s, not because it had anything to do with 9/11. And just like Obama has done so effectively in his campaign of “hope and change”, we are trying to change things with hope. Government equals hope. That’s right... we are gonna hope it up over there!*

Ah... fun with Bush.

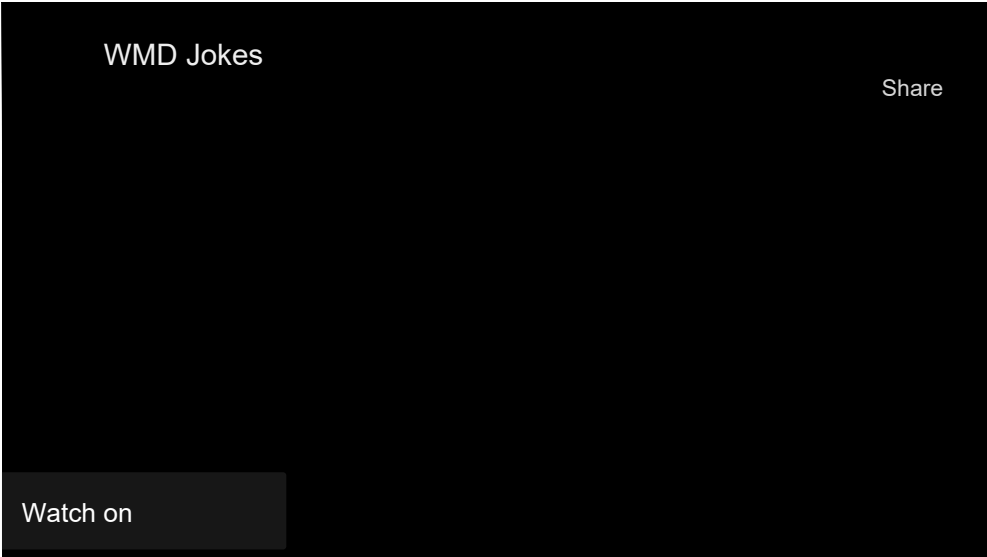

What can I say... it’s a guilty pleasure.

And, judging by the millions of smiley faces over in Iraq amongst the 1.5 million dead men, woman and children, the millions of injured and permanently disabled Iraqi men, women and children, the over 3 million Iraqi’s displaced from their homes, and the many new children smiling through their deformed and mutated little heads after being irradiated by U.S. depleted Uranium munitions, I’m sure that hope is the only thing they have left!

Mission accomplished, eh Bush?

Way to *do* hope...

But when he’s not addressing the nation through the corporate Zionist media, or lying in bad form to the press, we occasionally get a glimpse into the true nature (dark and twisted) of our glorious leaders...

The lesson to learn here is this – Bush is seen here joking about himself. He is looking back with fondness over his brilliant acting career as President of the United States. You see, it takes intelligence and cunning to pull off this kind of con. For while an intelligent man can convincingly act like an idiot, an idiot will never pass as an intelligent man. Thus, an academy award should be handed to George Bush Jr. for his wonderful 8 year performance as the bumbling fool of politics.

And, if you don’t understand why the room full of media members are laughing at this horrific and callous display by Mr. Bush, it’s because they are in on the joke!

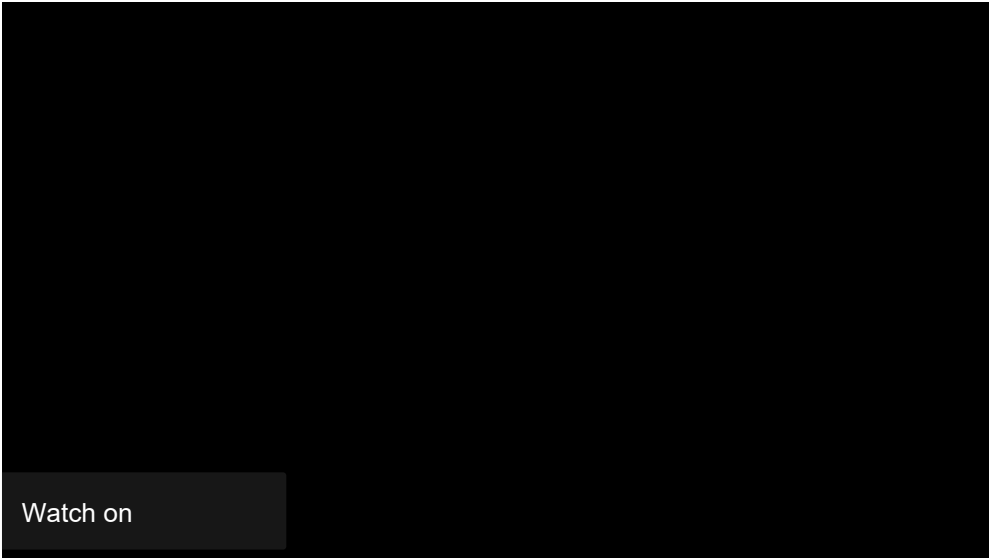

They are laughing at you!!!

They fooled you once... shame on you. And they fooled you twice, so... you wont get fooled again (at least I hope not after reading this).

When the media cameras are off, and the unedited footage gets out there into the public, we see a smarter, craftier, and more intellectual man than what is seen on the subverted news:

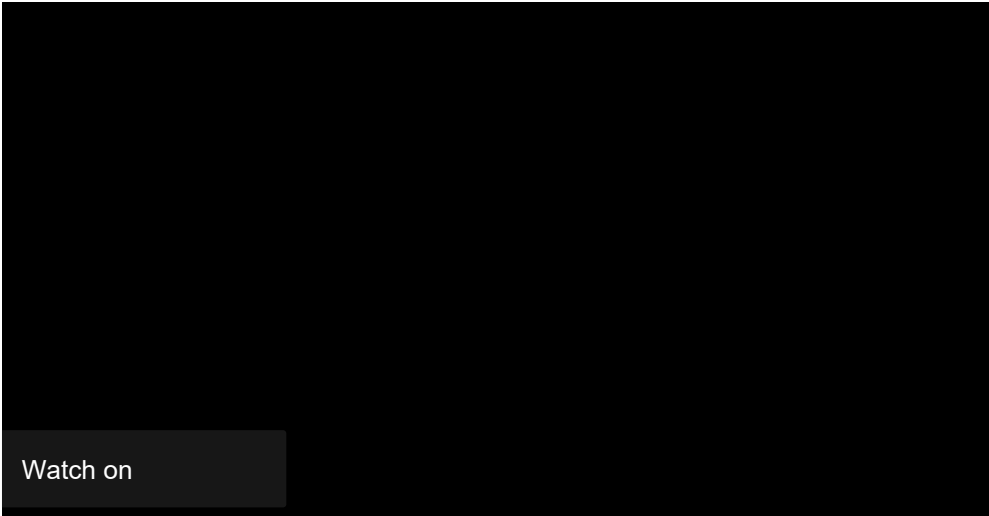

If you’ve never seen a movie called They Live... now would be a good time to watch it. This reminds me of the scene when the human elite are applauding their part in selling out their fellow humans, and being richly rewarded for it. Watch it here at about 4 minutes in:

But “They Live” also has the best scene in a movie ever! This is a must watch! This is how I feel when I try and wake people up about 9/11, or anything for that matter, and show them the real world:

Here is the link to watch the whole movie free: <http://video.google.com/videoplay?docid=-9005367754264973286#> – Of all the movies out there, and as corny as the lines are in this movie, I can’t think of another perfect representation of our current situation, metaphorically of course.

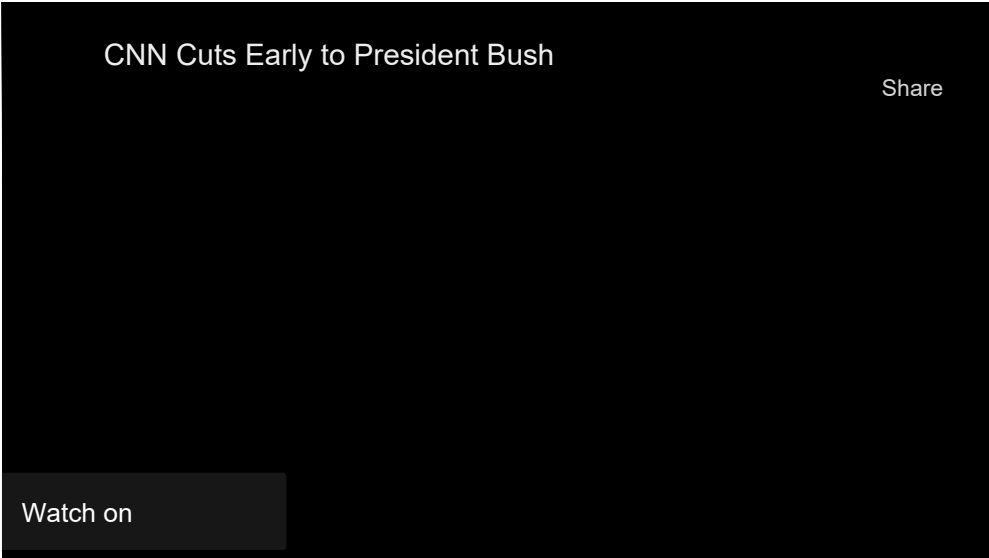

But back to Bush.

There is one other huge thing to consider here...

Presidents don’t write their own speeches. So when Bush has his “idiot” mask on, and he looks down at the podium to read the next line or at the teleprompter to get his next catchphrase, he is reading a script. In other words, his random indiscretions and fumbling-stumbling speeches were planned in advance. Just as a ghost-writer wrote Clinton’s, Gore’s, and Obama’s books, a staff speech writer has been writing presidential speeches since the dawning of the television.

They even start sounding planned, if you listen to enough. Perhaps that’s why he is so easily impersonated.

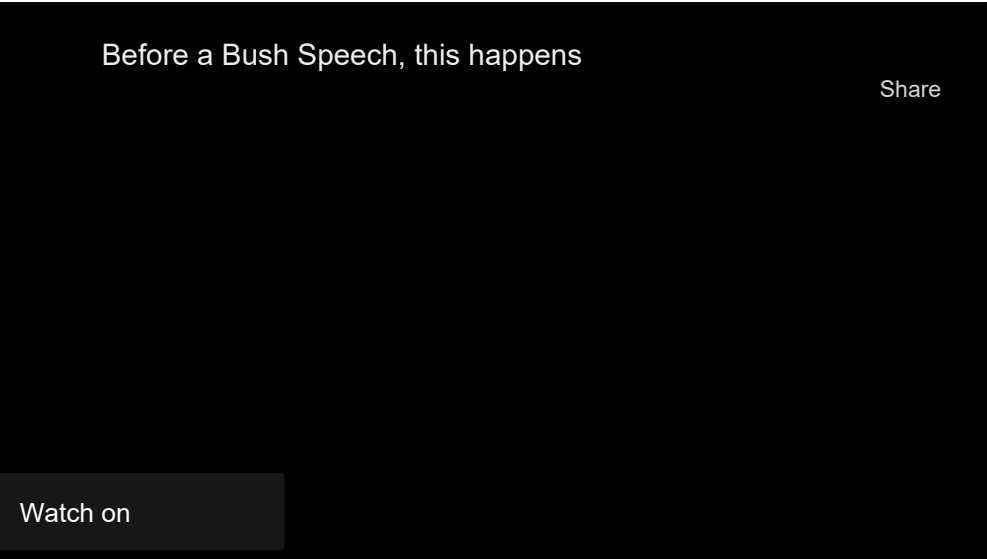

Bush rehearsing... And you thought only actors did that? Oh, wait...

Preparation before a speech. Most important here is that this is before Bush is about to announce war in Iraq. Watch as he smiles and jokes around before this speech. This is

Hollywood:

OK... If you still don't get it, here is George Bush in a gubernatorial debate in 1994, just four years before he suddenly became a professional fake idiot while campaigning for president. As you watch this, remember that there are no teleprompters, no notes, and no one telling him what to say:

But, if you still think he's an idiot... well than no offence – but you are an idiot!

If it makes you feel better, I fell for the act too! I called him an idiot. I got mad. I asked, how can this guy be our president? And how in God's name could he have been re-elected???

And then I woke up... and I learned that the media is a CIA front. I learned about Operation Mockingbird.

Former Washington Post publisher Philip Graham "believing that the function of the press was more often than not to mobilize consent for the policies of the government, was one of the architects of what became a widespread practice: the use and manipulation of journalists by the CIA" (*81). was known by its code name Operation MOCKINGBIRD. Former Washington Post reporter Carl Bernstein cites a former CIA deputy director as saying, “It was widely known that Phil Graham was someone you could get help from”.

Speaking of the CIA... what the Zionist owned and controlled opposition news networks don’t tell you is that Saddam Hussein was put into power by the American government. “In 1963, the CIA engineered a military coup, one of its most important successes in a long history of overthrowing governments around the world. The new regime, which the CIA had helped to install, was led by generals connected to the Baath Party, the party of Saddam Hussein. The CIA worked closely with the new government to help to hunt down, torture and murder thousands of members and sympathizers of the Iraqi Communist Party and anyone else who opposed the new regime. Hussein was a leading Baath Party operative who worked closely with the CIA in this witch hunt. In fact, CIA operatives later said that Hussein was a frequent visitor and guest at CIA headquarters in Cairo, Egypt, months before the coup. This formed the beginnings of a partnership which would flower in later decades.” (read more here: http://the-spark.net/o_saddam.html)

9/11 my friends, was a planned false flag event that has heralded unparalleled anti-constitutional and anti-human rights legislation in the United States. From the Patriot Act to continuity of government to the end of Posse Comitatus, the end of freedom has commenced with great strides in the last 9 years. And knowing that the Patriot Act was written before 9/11 makes it that much more obvious as to the purpose and usefulness of a controlled demolition of the Twin Towers, Building 7 (the third World Trade Center building that was demolished that day, which just happened to house all of the Enron documents and evidence), and a convenient missile strike at the Pentagon at the precise area where no people were working, and where the walls had just recently been reinforced.

This has been 9/11 (and Bush) for dummies.

I was just wondering if you were familiar with the work that Dr. Judy Wood has done in investigating the 9/11 disaster. She proved to me that most of the buildings just ‘dustified’ and points to a scalar weapon. Dr. Steven Jones who rose to the head of the 9/11 truth movement seems to be an Illuminati shill trying to make sure the investigation doesn’t cause any problems for his masters. He was very useful in blocking a patent for cold fusion.

http://drjudywood.com/articles/why/why_indeed.html#Introduction . On her web site are pictures that other investigators seem to have ignored or missed.

If indeed she is correct as i believe she is, this casts much doubt on a few recent ‘natural’ disasters like Haiti and Japan. Is there some villain with scalar energy weapon that can produce such disasters at will?

Yes sir, I am very familiar with Judy Wood. And honestly, since I saw her research presentation, I have decided that 9-11 is a lost cause. Why? Because now I have to not only convince the masses that the official story is bogus, but I have to convince the so-called “truth” movement that the “truth” is not what we’ve been fed either. What a seemingly impossible task. Besides, everything about the truth movement is not working, because nobody is doing anything about the truth they tell.

Not sure about Jones, so I wont comment there. But I will say that his research is worthless as there is no chain of custody or chain of evidence. The “dust” was not properly obtained, and therefore not admissible in

court. And that in a nutshell is the problem with the movement.
