

Common Core, Agenda 21, And Global Governance

21 Votes

Finally finished editing my lecture and power point presentation about the grand scheme of the international and private entities behind the Common Core Standards. Please share and re-post as you see fit. No copyright and no permission needed from me.

This lecture and power point explains how Common Core is pure Agenda 21 and a gateway for privatization of the entire school system. It shows a shocking in your face conspiracy by the 50 State governors (National Governor’s Association) and CCSO to create, copyright, and then sell by legal vote and enforcement Common Core State Standards to each State. Most important, it shows how this Common Core scheme cannot be done federally (per the constitution) and therefore must be created by agreement/treaty at the sustainable (agenda 21) state and local level. Finally, it shows the for-profit side where taxpayers will be funding computers and other Education products and services for every student in America – this is the public private partnership model (PPP). All this is happening through non-governmental organizations (NGO) while each local and State government simply rubber stamps. In the end, I have unraveled the conspiracy of a lifetime!

Clint, I took time and read the NGA.org website. There as you showed under “Mission Statemtn” it says “... support the principles of federalism.” I opened (right hand side) “A Governor’s guide to NGA” (pdf) brochure. [pg 4, right column under How Governors Influence National Action through NGA]

“Governors are uniquely positioned in American government. Their visibility as state leaders and credibility as chief executives give them unique standing to influence federal legislation and regulations.”

Wait a minute! How can they “influence” fed if they are (in their mission statement) actually SUPPORT the principles of federalism?!!!

Oh, and on that other note of 55 states, it looks like it was a typo that nobody cares to correct. In the brochure (above) the same statement had 50 states.

This just shows how ‘seriously’ we should take them.

realityblogger / December 24, 2013

Governors in Canada are called “Governor’s General”.

In the U.S. the Governor has a Lieutenant. Each state has an attorney “General”. And on down the line they are military positions. The enabling act of each state (requirements for already owned U.S. territories to become states) required each new state to have these federal military positions (governor, etc.).

We covered martial law/military rule on my last weeks shows with Hal Anthony, discovering the Civil War never ended and no peace treaty ever signed. In other words, we live under military occupation of the United States as foreign countries under the Lieber code.

De facto (unlawful, illegitimate) government is one of military force, not

From NGA CONSOLIDATED Financial Report:

[pg8]

Nature of Activities and Significant Accounting Policies

Nature of activities: National Governors Association (NGA) is an instrumentality of the states of the United States of America whose membership is restricted to the governors of the states, the U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of Puerto Rico, and the Northern Mariana Islands.

NGA’s purposes include:

Providing a medium for the exchange of views and experiences on subjects of general importance to the people of the United States;

Fostering interstate cooperation;

Promoting greater uniformity of state laws;

Attaining greater efficiency in state administration;

Facilitating and improving state-local and state-federal relationships; and

Vigorously representing the interests of the states in the federal system.

National Governors Association Center for Best Practices (NGA Center) is a separately incorporated 501(c)(3) entity organized for the general purpose of establishing and maintaining a center for tracking, evaluating, and disseminating information on state innovations and best practices.

Correct me if I am wrong here: if the “instrumentality of the states of the United States of America whose membership is restricted to the governors” does this mean that governors act like an individual dictators for the respective state?

 Like

realityblogger / December 24, 2013

It means they are exactly what they are – Federal Commander In Chiefs of the State National Guard. So as executive military dictators, then yes.

CC is not dead...only the name has been changed.....As long as ESSA is law Common Core is not dead. It is part of the states ESSA plan. She has no clue nor does President Trump what is in ESSA. Probably 90% of the elected in DC

have no clue what is in this 1061 page law. She and the President support ESSA. She is mouthing the words she knows people want to hear but she is not being honest. She is a huge proponent of Charter schools that take tax payer money but have no elected school boards. No state has divorced itself from Common Core because they can't. Even if they wanted to most states cannot afford to do so. Does she realize all the books are aligned with CC, all the tests are aligned with CC, PISA is aligned with CC as of 2018, GED & SAT ALL aligned with CC. States cannot afford to undo all of that and if they do SAT-GED are national tests. PISA is international. Are they going to change all these tests again?? I truly hate dishonesty and deception. She is either dishonest or completely inept. UNDERSTAND COMMON CORE IS A NAME ONLY. What they are doing is changing the name but the standards remain. This is the biggest deception ever. Karen Bracken
